Subject: 2nd quarter crime stats

Kyle,

We've received the TBI crime stats through the second quarter of 2017.

Basically, for Memphis, they show a 9.9% increase in major violent crime over 2016 (driven by a 14.5% increase in reported ag. assaults), a 10.6% increase in major property crime (driven by a 37.2% increase in reported motor vehicle thefts), and 7.4% increase in overall crime.

About the only positive news is a 12.2% drop in murders.

We will probably release these next Tuesday (or possibly Wednesday). If this is something on which the mayor wants to comment, can you get us a quote by next Monday afternoon ? (I realize he may prefer to defer to some of the rest of us.)

Bill Gibbons
